

# MONDAY

## Al-Dana Hall

**8:30 – 10:00**

### VITREORETINAL UPDATE II (SES 12)

Moderators: P. Rao *UAE*, S. ElSherbiny *UK*, N. AlKobaisi *Bahrain*

- 8:30 A. Radwan, *KSA*  
Management of Idiopathic polypoidal choroidal vasculopathy
- 8:40 M. Entabi, *UK*  
Evaluation of Bevacizumab: Efficacy on visual outcome in macular edema secondary to diabetic maculopathy and ischemic retinal vein occlusion
- 8:48 P. Rao, *UAE*  
Results of heavy silicon oil tamponade for retinal detachment with inferior proliferative vitreoretinopathy
- 8:56 S. ElSherbiny, *UK*  
Treatment options for non age-related choroidal neovascularisation
- 9:04 O. Okonkwo, *Nigeria*  
Visual outcome following combination therapy using retinal laser photocoagulation & intravitreal Bevacizumab (Avastin) for the treatment of diabetic macular edema
- 9:12 A. Ali, *Pakistan*  
Early experience with intravitreal Bevacizumab combined with laser treatment for retinopathy of prematurity
- 9:20 M. Masoudnaseri, *Ukraine*  
Possibility of silicon Mehran lent-1 to avoid postoperative complications after scleral buckling surgery, in retinal detachment
- 9:28 A. Bhargava, *India*  
Intravitreal Bevacizumab for macular edema related to retinal venous occlusion
- 9:36 M. Riazi-Esfahani, *Iran*  
Correlation of autofluorescence changes with macular thickness in neovascular-AMD after intravitreal injection

- of Bevacizumab
- 9:44 B. Bouassida, *Tunisia*  
Vitreotomy assisted with perfluoro carbon liquid in severe retinal detachment surgery.
- 9:52 A. Badla, *Syria*  
Advantages of bimanual technique in vitreoretinal surgery
- 10:00 A. Hassan, *Egypt*  
Intravitreal Bevacizumab as primary treatment for exudative age-related macular degeneration.

## Palm 1 Hall

**8:30 – 10:00**

### EYELID & LACRIMAL ISSUES (SES 02)

Moderators: N. Sargent *Palestine*, S. Mallajosyula *India*

- Keynote:
- 8:30 T. Odat, *Jordan*  
Clinical presentations and causes of eyelid ptosis in 204 Jordanian patients
- 8:36 E. El-Toukhy, *Egypt*  
Minimal ptosis surgery
- 8:42 M. Abdulhafez, *Egypt*  
A modification in the Quickert- Dryden technique to reduce silicone tube prolapse
- 8:48 S. Elwan, *Egypt*  
Aetiology of punctal stenosis & results of treatment with perforated plugs
- 8:54 R. Mohamed Ali, *Syria*  
A new teflon valve for nasolacrimal duct obstruction treatment
- 9:00 N. Sargent, *Palestine*  
Rubber-coated bullet injuries in the occupied Palestinian territories
- 9:06 S. Mallajosyula, *India*  
What happens to levator muscle in ptosis?
- 9:12 M. Rashad, *Egypt*

- Management of traumatic canalicular laceration by pigtail intubation
- 9:18 A. Sabry, *KSA*  
Preservative fascia lata as a spacer in anterior lamellar recession management of entropion
- 9:24 T. Ismail, *Egypt*  
Canaliculoplasty using a monocanicular stent for repair of monocanicular laceration
- 9:30 M. Diab, *KSA*  
Outcome of various surgical modalities of DCR in children: a comparative prospective study
- 9:36 O. Hakim, *KSA*  
Endoscopic probing and the end of silicone intubation
- 9:42 S. Parhizgar, *Iran*  
Single dose subconjunctival injection of Bevasizumab has no therapeutic effect on primary pterygium
- 9:48 R. Krishnan, *Bahrain*  
Prevalence of dry eye
- 9:54 Discussion

## Palm 2 Hall

**8:30 – 10:00**

### RECENT RESEARCHES IN PEDIATRIC OPHTHALMOLOGY (SES 07)

Moderators: D. Shawky *Egypt*, O. Hakim *KSA*, M. Shaeri *Iran*

- 8:30 D. Shawky, *Egypt*  
Duane retraction syndrome; clinical and anatomical study
- 8:36 O. Hakim, *KSA*  
A new approach for management of monocular elevation deficiency
- 8:42 O. Hakim, *KSA*  
Abuse application of fixation preference test for diagnosis and treatment of amblyopia
- 8:48 Z. Yazdian, *Iran*

- Adjustable superior oblique tendon spacer for treatment of isolated inferior oblique palsy: A report of six cases
- 8:54 L. Rais, *Morocco*  
Place to the pars plana vitrectomy in post-traumatic endophthalmitis in child
- 9:00 V. Balasanyan, *Russia*  
Our modification of Kaufman's oculomotor nerve paralysis operation
- 9:06 A. AlBusaidi, *Oman*  
Compliance of amblyopic patients to occlusion therapy: a pilot study from Oman
- 9:12 M. Salah, *KSA*  
Inferior oblique inclusion, incidence early detection and prevention
- 9:18 M. Shaeri, *Iran*  
A comparative study of atropine vs patch therapy for treatment of amblyopia 2005-2007
- 9:24 I. Aznauryan, *Russia*  
New non-surgical treatment of ocular developments of systemic inflammatory diseases of the connective tissue in children
- 9:30 R. Baig, *Pakistan*  
Prevalence of allergic conjunctivitis in school children in Karachi, Pakistan
- 9:36 M. Grim, *UAE*  
Atropine "penalisation" treatment for amblyopia
- 9:42 E. Kaouadji, *Algeria*  
Amblyopia screening program in the school child in the west of Algeria
- 9:48 K. Shalabi, *Libya*  
Defective vision and refractive errors in Libyan preschool children
- 9:54 Discussion

### BEST VIDEOS & POSTERS SESSION

Venue: Al-Dana Hall

10:30 – 12:00

The best 3 videos and posters will be displayed in this session

Moderators: O. Beltaief *Tunisia*, A. Ouertani *Tunisia*, A. Ahmad *Bahrain*, A. Hashem *KSA*

## Palm 1 Hall

**10:30 – 12:00**

### CATARACT CHALLENGES (SES 06)

Moderators: M. Siddig *Sudan*, A. Ghaffarieh *Iran*, J. Khechach  
*Morocco*

- Keynote:
- 10:30 A. Ghaffariyeh, *Iran*  
Magnet assisted capsular bag fixation for management of  
zonular dialysis during phacoemulsification
- 10:38 P. Bhasin, *India*  
Managing subluxated lens with phaco using iris retractors  
& CTR
- 10:46 J. Khechach, *Morocco*  
Phacoemulsification in mature white cataract.
- 1054 R. Shah, *Oman*  
White cataracts in oman – a phacoemulsification  
challenge
- 11:02 A. Harby, *Egypt*  
Comparison between the effect of torsional and  
longitudinal phaco on the corneal endothelium in hard  
cataract
- 11:10 A. El-Moatassem, *KSA*  
Application of torsional phacoemulsification mode in  
different nuclear densities
- 11:18 H. Taha, *KSA*  
Evaluation of anterior chamber ciliary sulcus supported  
intraocular lens implantation
- 11:26 E. Ramadan, *KSA*  
Chopping with back vertical cracking in management of  
supra hard cataract
- 11:34 R. Challa, *India*  
Tackling Argentinean flag sign
- 11:42 M. Siddig, *Sudan*  
Couching and scleral –fixation IOL

11:50 Discussion

## Palm 2 Hall

**10:30 – 12:00**

### LASIK INVESTIGATIONS & CLINICAL RESULTS (SES 03)

Moderators: A. Shojaei *Iran*, I. Hamdi *KSA*, A. Shama *Egypt*

- 10:30 Keynote:  
S. Aliakbari, *Iran*  
A comparative study with the Confoscan 3 on endothelial cell changes after keratorefractive surgery
- 10:37 B. Elbayoumi, *Egypt*  
Pentacam in evaluation of the central 3 mm of the cornea for safe LASIK results
- 10:44 M. Saleh, *Egypt*  
An assessment of regional differences in central corneal thickness in patients seeking refractive surgery.
- 10:51 H. Al-Arrayed, *Bahrain*  
Hyperopic LASIK vs. LASEK
- 10:58 A. Shama, *Egypt*  
Epi-LASIK with discarding the flap vs alcohol-assisted photorefractive keratectomy
- 11:05 A. Abolhasani, *Iran*  
Bitoric lasik in pure astigmatism
- 11:12 K. Said-Ahmed, *Kuwait*  
Predictability and safety of Carriazo-pendular microkeratome in laser in situ keratomileusis (LASIK) in the hands of a new user.
- 11:19 A. Shojaei, *Iran*  
Refractive surgery in patients with nystagmus
- 11:26 T. Gamaly, *Oman*  
Optimized Aspheric Transitional zone (OATz) Photo Refractive Keratectomy (PRK) with the cross cylinder technique for the treatment of high astigmatism.
- 11:33 I. Hamdi, *KSA*  
The ability of Torsion Error Detection® function to improve excimer laser outcome

- 11:40 M. Hantera, *KSA*  
Does Toric ICL implantation aberration free procedure?
- 11:47 Discussion

## Al-Dana Hall

**12:30 – 14:00**

### LAMELLAR & PENETRATING KERATOPLASTY (SES 04)

Moderators: W. Shihadeh *Jordan*, R. Salouti *Iran*, K. Abdel-Rahman  
*KSA*

- Keynote:
- 12:30 J. Medhi, *India*  
Therapeutic penetrating keratoplasty – how effective is it?
- 12:38 S. Hamada, *UK*  
Paediatric keratoplasty: the real challenge!
- 12:46 A. Injarie, *UK*  
Risk factors and causes of elevated intraocular pressure after keratoplasty
- 13:54 M. AlReefy, *Bahrain*  
Intracorneal ferrara rings vs corneograft for keratoconus
- 13:02 P. Studeny, *Czech Republic*  
Comparison of outcomes of DLEK versus DMEK transplantation
- 13:10 M. Hosny, *Egypt*  
Early difficulties in the learning curve of deep lamellar keratoplasty
- 13:18 K. Abdel-Rahman, *KSA*  
Autograft lamellar patch reimplantation to treat intraoperative iatrogenic central hole during DLK
- 13:26 R. Salouti, *Iran*  
The result of deep anterior lamellar keratoplasty (Melles scleral tunnel technique) in large scale of keratoconus patients
- 13:34 W. Shihadeh, *Jordan*  
Keratoprosthesis: the answer for multiple graft failures
- 13:42 A. Berraho, *Morocco*

Penetrating keratoplasty in children

13:50 Discussion

## Palm 2 Hall

**12:30 – 14:00**

### GLAUCOMA UPDATE (SES 09)

Moderators: S. Alobeidan *KSA*, A. Amraoui *Morocco*

- 12:30 Keynote:  
A. Ghaffariyeh, *Iran*  
Brain-derived neurotrophic factor (BDNF), a novel marker for therapeutic monitoring in glaucoma optic neuropathy
- 12:36 A. Salah, *Egypt*  
Combined intravitreal injection of Bevacizumab and cyclophotocoagulation for treatment of refractory neovascular glaucoma
- 12:42 E. Osman, *KSA*  
Full panretinal photocoagulation improves the outcome of trabeculectomy in neovascular glaucoma
- 12:48 T. Eid, *KSA*  
Intravitreal Bevacizumab (Avastin) followed by aqueous shunting tube surgery for management of intractable neovascular glaucoma: safety and efficacy
- 12:54 S. AIObeidan, *KSA*  
Deep sclerectomy in uveitic glaucoma
- 13:00 M. Mustafa, *Ireland*  
Sutureless deep sclerectomy with antimetabolite achieves low pressure in the management of primary open angle glaucoma
- 13:06 E. Ramadan, *KSA*  
Eslem approach combined viscocanalostomy and transillary filtration
- 13:12 K. Hassan, *KSA*  
Results of combined phacoemulsification and viscocanalostomy in pseudoexfoliation versus primary open angle glaucoma
- 13:18 A. Amraoui, *Morocco*

- Evaluation of the influence of corneal biomechanical properties on intraocular pressure measurements using ORA in 100 Moroccan glaucomatous patients
- 13:24 S. Saif, *Egypt*  
Glaucoma scoring systems
- 13:30 M. Khalaf, *Egypt*  
Phosclerostomy in reviving failing filters
- 13:36 S. Pathai, *UK*  
Blurred vision and headaches in a patient with hydrocephalus is not always due to shunt malfunction
- 13:42 A. Gaafar, *Egypt*  
Diagnosing glaucoma suspect eyes by optical coherence tomography
- 13:48 A. I. Sedkey, *Egypt*  
Assessment of macular anatomical and functional changes in glaucoma patients
- 13:54 G. Raman, *India*  
Assessment of consensual ophthalmotonic reaction (COR) following diode laser cyclophotocoagulation (DLCP) for advanced/ refractory glaucoma
- 14:00 A. AlJazzaf, *Kuwait*  
Incidence and Management of Elevated Intraocular Pressure After Silicone Oil injection
