

VIDEOS PROGRAM

E. El-Toukhy, *Egypt*

Different surgical procedures in pediatric ophthalmology and strabismus

A. El-Masry, *Egypt*

Sutureless removal of intralenticular metallic foreign body

M. El-Deeb, *Egypt*

Triamcinolone acetonide (TA) assisted internal limiting membrane (ILM) peeling

M. Khalifa, *Egypt*

The role of iris prosthesis in management of traumatic cataract with iris coloboma

P. Bhatia, *UAE*

Surgical management of encapsulated bleb & histopathology

N. Bhatt, *Bahrain*

Extreme traction in macular hole (MH)

J. Bhaskaran, *India*

Intraocular lens implantation under continuous irrigation

M. Mustafa, *Ireland*

The additional tests in examination of ptosis in children

M. Mustafa, *Ireland*

The management of ruptured rectus muscle secondary to trauma

H. El-Sabagh, *KSA*

Combined cataract, persistent hyperplastic primary vitreous and coloboma of the iris, retina and choroid, surgical course and outcome

A.K. Lakshminarayanan, *India*

Scientific tips about phaco tips and phaco tubings

A.K. Lakshminarayanan, *India*

Dual magic

S. Jastaneiah, *KSA*
Tips in phacoemulsification: through the microscope
and beyond

A. Ahmed, *Egypt*
PKP and scleral fixation of black diaphragmatic IOL
for management of aniridia, aphakia and corneal
opacity

U. Srinivasan, *India*
Low vac phaco

U. Srinivasan, *India*
Fluidics in bimanual phacoemulsification

N. Bhatt, *Bahrain*
Vitreoretinal surgery for stage 5 retinopathy of
prematurity (ROP)

N. Toshniwal, *India*
Posterior polar cataract, a surgeon's nightmare
made easy with in-situ phaco

K. Hashem, *Egypt*
Secrets of torsional phaco

J. Kasireddy, *India*
Retro pupillary iris fixation of artisan model IOL for
patients with subluxated lens with insufficient
capsular support

I. Hamza, *Egypt*
Taming intra-operative floppy iris syndrome [IFIS]
with the proper ophthalmic visco-surgical devices
[OVD]

S. Jamal, *KSA*
Pitfalls in strabismus surgery

H. Mortada, *Egypt*
Management of PVR with severe retinal shortening
and contraction

K. Hassan, *KSA*
Back vertical chopping phacoemulsification in dense
nuclear cataract

M. F. Rahim, *Syria*
Transscleral IOL fixation – the quest for perfect
surgery

- E. Ramadan, *KSA*
Supra hard cataract management
- M. El-Deeb, *Egypt*
Intraocular foreign body (IOFB) removal in a case of traumatic vitreous hemorrhage, retinal detachment and posterior retinal incarceration
- T. Eid, *KSA*
Post-ppk phacoemulsification, aniridia lens, and viscocanalostomy-trabeculectomy for management of traumatic iris deficiency, intumescent cataract, and secondary glaucoma
- T. Eid, *KSA*
Posterior assisted lavitation (PAL) for partially dropped nucleus; surgical pearls for causative factors and management
- M. Hantera, *KSA*
Foldable IOL exchange - is it simple after 8 months from primary procedure?
- B. Malyugin, *Russia*
New technique of phaco surgery in small pupils
- B. Malyugin, *Russia*
Microendoscopy assisted IOL scleral fixation
- J. Khechach, *Morocco*
Management of orbital hydatid cyst
- M. Lezrek, *Morocco*
Surgical treatment of severe proliferative diabetic retinopathy
- H. El-Moussaif, *Morocco*
Management of dislocated lens or fragments of lens in the vitreous
- A. Sabry, *KSA*
Preservative fascia lata as a spacer in anterior lamellar recession management of entropion
- I. Zneleznov, *Yemen*
The first implantation of artificial vitreous body at the treatment of recurrent retinal detachment
- R. Shah, *Oman*

Inside out – a new technique of hydrodissection for posterior polar cataract

A. Taguri, *KSA*

Continuous phaco-chop technique for minimum ultrasound energy consumption using Allergan sovereign® phacoemulsification machine

D. Tan, *Singapore*

Endothelium Keratoplasty - Please don't fold
